

A notice about the fm morning shows in the Jacksonville area. They have got to clean up the language around here. Its hard enough to keep a kid flying right with what he hears at school, but the content on the radio keeps my radio on the am stations. I get a little tired of hearing: Ho's, Bitches, Assholes, Taking it in the ass, and much more. I am a truck driver and it gets under my skin. Lets keep the locker room chatter where it belongs. We have enough 8 year olds walking around my neighborhood talking like mechanics. Thanks, Cal
